Breakthrough Coaching (For organizations and Individuals)

We partner with clients in a thought-provoking and creative process that inspires them to maximize their personal and professional potential. We provide an ongoing partnership designed to help clients produce fulfilling results in their personal and professional lives. Our coaches help people improve their performances and enhance the quality of their lives.

Our coaches are trained to listen, to observe and to customize their approach to individual client needs. We seek to elicit solutions and strategies from the client; we believe the client is naturally creative and resourceful. Our job is to provide support to enhance the skills, resources, and creativity that the client already has.

Keynote Speeches (For Organizations)

Our Keynote Speeches are custom tailored to the needs of organizational events. Our Keynote speaker,

Ahmad Duranai, B. Arch, MBA, OAA, BTC is a Breakthrough Coach, Passion Test™ and a Passion Test For Business™ Facilitator and Architect. He is passionate about his work as public speaker and facilitator. He has over 30 years experience as Architect on numerous projects in Canada, The United States and The Middle East. The Passion Test for Business™

This is a forward looking vision for organizations who want to structure their business in a passion-based and long-term sustainable way rather than short-term monetary gains. In the first phase, we work with the owners and leaders of the business to clarify and determine what the unique value of the organization is and what are its core passions. Then we find out what are the core passions of key personnel and how their passions can be aligned with those of the business. It is a unique approach for sustainable growth of the businesses.
